

# Flex-A-Fill™

**“Used to seal cracks in asphalt concrete or Portland Cement Concrete”**

## Hot-applied polymer modified asphalt sealant

*An excellent choice for use on:  
Highways, Streets, Airfields and,  
Parking lot pavement projects*

Flex-A-Fill is manufactured by **Crafco, Inc.**, the world's leading manufacturer of pavement preservation products since 1976.

Flex-A-Fill is a hot-applied polymer modified asphalt product used to seal cracks in asphalt concrete or Portland Cement Concrete pavements.

Flex-A-Fill's unique formula is a highly adhesive and flexible compound which makes it ideal for a wide range of climates. It resists cracking in the winter and is highly resistant to tracking or pick-up by vehicle tires at warm summer temperatures.

Flex-A-Fill is a low viscosity, self-leveling product that easily penetrates narrow cracks and is highly recommended for use in asphalt pavement prior to coal tar sealing, slurry, overlay or chip sealing. It's the ideal product solution for use in highway, street, airfield and parking lot pavements to seal pavement cracks.

FLEX-A-FILL is:

**ASTM Certified  
Rapid Melting  
Resist Cracking**

**Flexible  
Traffic Ready in 20 minutes  
Volatile Organic Compound Free**
