

KIT #92355

## Magnum Hydraulic Control Valve

This is a retrofit assembly for existing Magnum Spray Patchers. If you

want to retrofit your machine, the kit part number is 92355. Price is \$1,800.00. For installation instructions, contact David Barnes, (480) 655-8333 ext.211/(800) 528-8242. This will be standard on all units effective 8/1/03.

The new hydraulic control block operates the truck auger aggregate flow and the tailgate auger aggregate flow. With a flip of the electric switch at the operator's panel the Magnum auger or the tailgate auger will go forward or reverse. The aggregate flow can be controlled by the flow control knobs on the side of the aluminum block.
